 class 1:

UNCRF ARTICLES : 28, 31 & 23.

9.9.21

Today the children signed our class charter after decorating the letters in their name. They chose 3 UNCRRC Articles that they thought were best for class 1.

UNCRC Article 3 - The best interests of the child must be top priority in all things that affect them.

16.9.21

Today, the children worked in small groups to identify wants and needs. We were surprised that some things we LOVE were "wants" and not things we really "need" to survive.

Today we talked about our class charter and decided upon our articles for class 2. We agreed on the rights holder's actions and the duty bearer's actions. We then all signed it to show that we agreed and would work throughout the year to uphold these values.

L.O - I can explain what life was like for soldiers in the trenches.

Dear Mum, UNCRC article 38 (war and armed conflicts).

Being in the war is horrendous, you have different parts of the day to go to sleep, do medical things; being ^{so} watch and to eat. When we eventually do get our time to go to sleep — we ^{sp} always get woken up.

The weather here is horrible — it's always muddy there's people that have trench foot from how muddy it gets in the trench. Peoples' feet are growing with their socks. It's ^{sp} definitely not hygienic, the toilets are overflowing & there's rats as well, & there's people always getting killed — it's so sad here.

Last night, something amazing happened we have a dog we have a dog and something amazing happened, she could smell gas in the night and she helped and calmed a man in the no-man's-land over barbed wire.

In front of the front line (where I fight) there's sand bag in front of so if a bullet hit it would have a less risk of hitting us. A good effort base - Mae.

How did the soldiers entertain themselves? It's all about the trench.

Lo-gean explain what life was like for soldiers in the trenches

Dear mam,

I have been in the trenches for 2 months now, and life has been tough. We take ~~turns~~ rotating shifts, so finding sleep is difficult - you may only get an hour a day! The conditions are awful, it's wet and gloomy, the hygiene is low and there's over-flowing toilets. Unfortunately, my mate just got sent to the real hospital with trench-foot (they said they may have to extract his foot).

Thankfully, we have some company in here. There's a dog and she helps a lot. She smells gas in the middle of the night, and the other day she lay in no-man's land, comforting a injured soldier!

I hope we can talk soon, I hope you are well.

Lots of love,

peyton.

Good effort Peyton.

My target for this term is to get better at calculations (grid bus stop).

In order to achieve my target I need to do calculations when ever I do maths to solve them out.

Well done Amelia
