

Moonstones

Look at the animals on your sheet. Can you cut and stick them into the correct columns?

Remember, a vertebrate has a backbone – invertebrates do not!

Invertebrates	Vertebrates

Moonstones

Types of Invertebrates

Look carefully at the pictures of different invertebrates below.
Can you match the pictures to the name of the invertebrate?

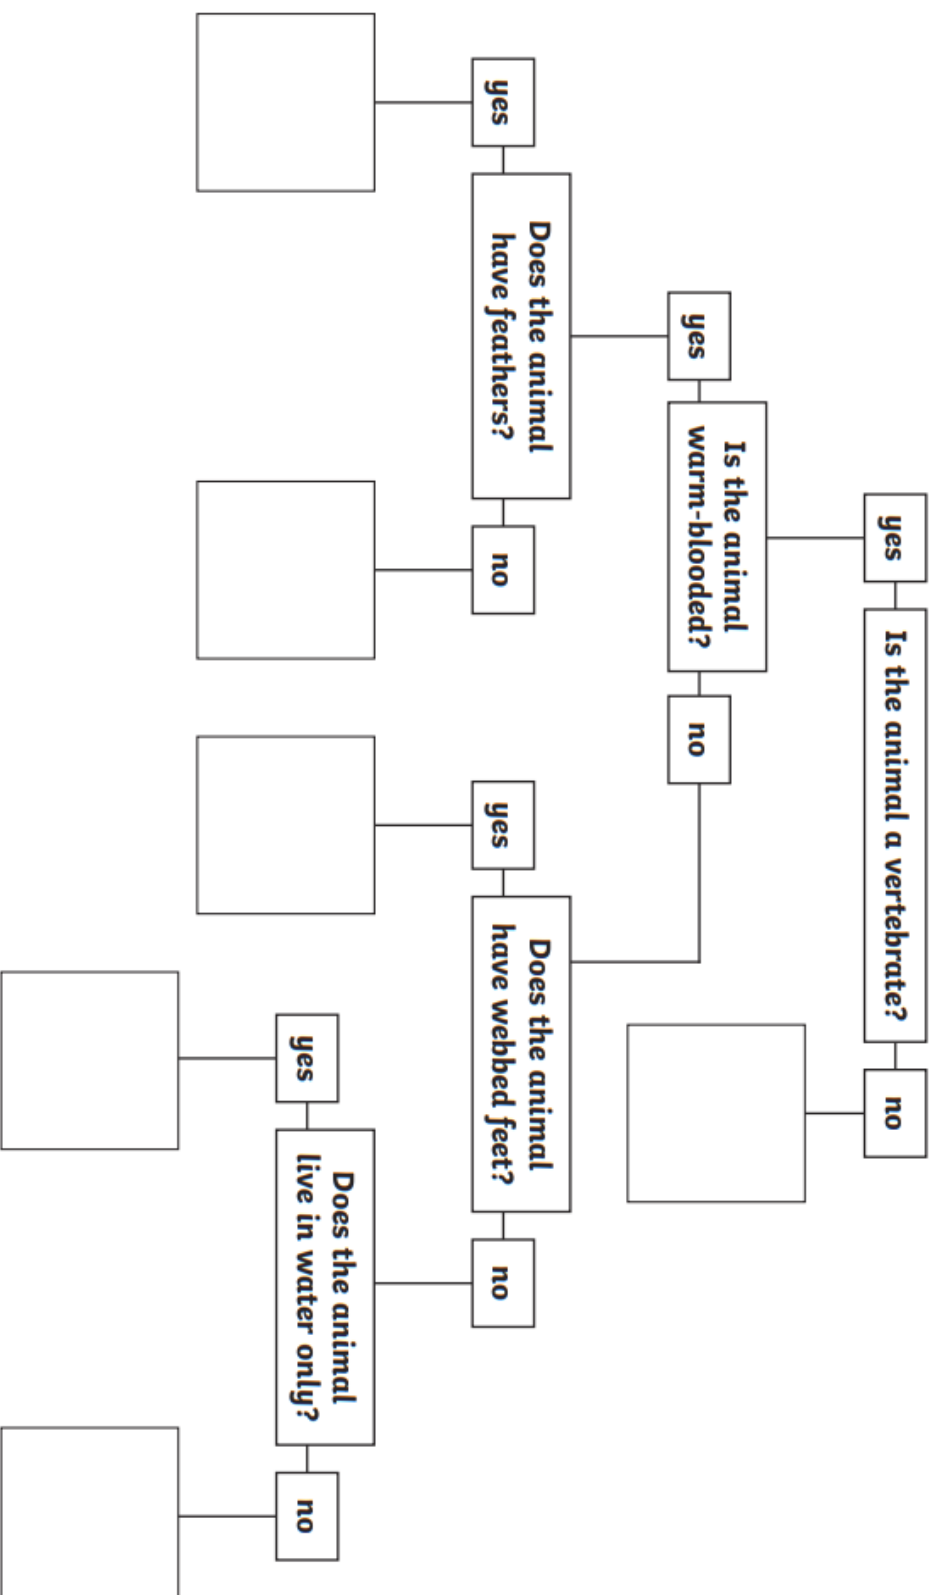

Keywords:

insect	annelid	crustacean
mollusc	arachnid	echinoderm

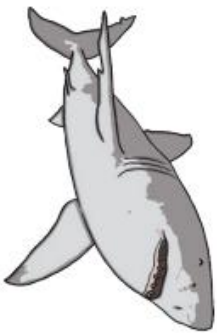

Animal Classification Flow Chart

Read the question and stick the correct animal in the box.

Animal Groups

Write which group each animal belongs to and why.

 <p>shark</p>	 <p>toad</p>	 <p>penguin</p>	 <p>elephant</p>	 <p>crocodile</p>
A shark is a	A toad is an	A penguin is a	An elephant is a	A crocodile is a
