

Name _____

sides

2 sides

3 sides

4 sides

5 sides

6 sides

Teacher's instructions

Write the letters in the correct boxes. Some boxes will have more than one letter.

Name _____

circles, squares, rectangles, triangles

Teacher's instructions
Write the name of each shape underneath.
Choose from circle, square, rectangle, triangle.

Shape

1 Join each shape to its name using a pencil line.

square

triangle

circle

2 Write how many sides each of these shapes has.

a rectangle

b pentagon

c hexagon

3 Draw a picture using squares, circles, triangles and rectangles.

Flat (2D) Shapes

- 1 Colour in all the **triangles** red, the **circles** yellow and the **rectangles** blue.

- 2 Draw rings around all the objects that look like **circles**.

- 3 Draw the correct shape inside each box.

Two large empty boxes for drawing. The left box is labeled "rectangle" and the right box is labeled "square".

"I can identify and name 2D shapes."

Solid (3D) Shapes

1 Draw lines to match each object to the correct shape name.

sphere

cuboid

pyramid

cube

2 Circle all the **pyramids**.

3 Write down the name of the 3D shape described.

This 3D shape has 6 square faces.

This 3D shape is completely round.

"I can identify and name 3D shapes."

Mermaids

2D Shapes

1. Draw lines to match each shape with the correct name.

octagon

circle

triangle

pentagon

2. Look at these objects. Put a tick under each of the **circles**.

3. Draw lines to match each shape with the correct **group**.

One has been done for you.

3D Shapes

4. Draw lines to match each shape with the correct number of **edges**.

9 edges

2 edges

12 edges

5. Tick the shape that has **5 vertices**.

6. Look at this 3D shape.

Draw a ring around **two** shapes that make up its **faces**.

hexagon

circle

pentagon

square

triangle

Have you got the hang of 3D shapes?

knights.
