Name the bones in the body using the words at the bottom of the page.

finger bones ribs calf bone elbow bone skull shin bone upper arm bone backbone  
thigh bone forearm bone hip

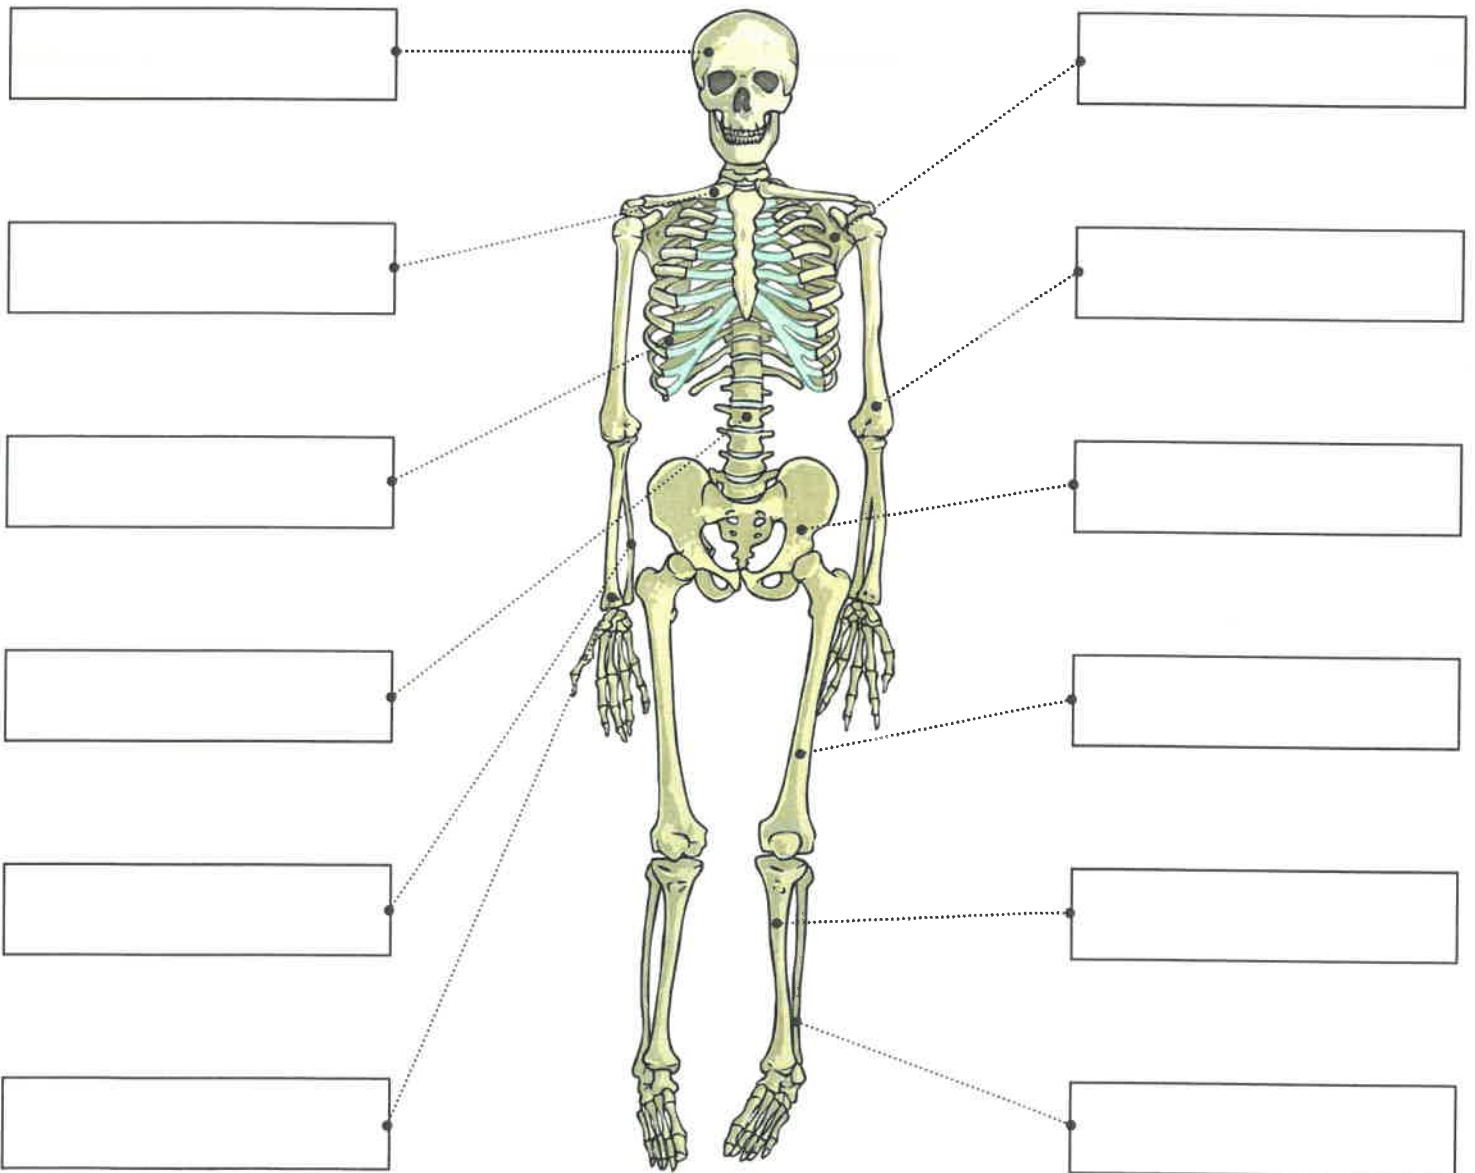

Write Whales

# Labelling the Human Skeleton

To investigate an idea about how the human skeleton supports movement.

Label the parts of the skeleton using the words from the word bank.

For an extra challenge, you can cover over the word bank. Check you have the answers correct by looking at your **Knowledge Organiser**.

skull	fibula	tibia
scapula	radius	humerus
pelvis	clavicle	vertebral column
ribcage	femur	ulna

# X-rays Worksheet

Brown Bears

Name: ..... Date: .....

Why do we have x-rays?

---

---

Can you work out the body parts which have been X-rayed?
