

WHAT GENES MEAN

Genetic disorders affect one in 25 children in the UK...

Star, aged 10, and her sister Tiana, aged 7 have **BRITTLE BONE DISEASE**

Ashley, aged 11, has **TREACHER COLLINS SYNDROME**

Tamilore, aged 10 has **SICKLE CELL ANAEMIA**

Life can be very difficult for these children...

Some children look different and are often stared at and teased

Some children have to take extra care to live a normal life every day

Some children find it hard to communicate, understand and learn

Tiana and Star's story...

Our money makes a real difference...

Equipment, like a specialist wheelchair, or frame

Nursing and care services

Respite or a well-deserved holiday

Our Jeans for Genes Day

What else could we do to help?

Don't stare

Play and support

Be patient

**WEAR
JEANS**

**CHANGE
LIVES**
