Fruit Plant Growth Sequencing

A 2x3 grid of empty rounded rectangular boxes for sequencing fruit plant growth. The boxes are arranged in two rows and three columns. Arrows indicate the sequence: a right-pointing arrow above the top row, and up-pointing arrows between the first and second columns, and down-pointing arrows between the second and third columns.

Superheroer

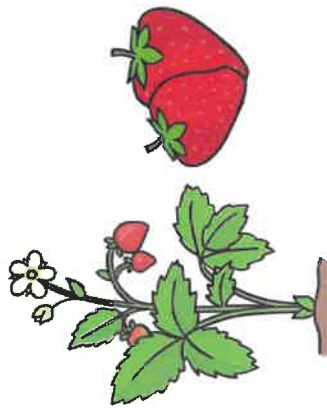

Fill the plant pot with soil.

Plant the seeds into the soil.

Using a watering can, water the seeds.

Fruit then grows on the plant.

The plant grows and begins to flower.

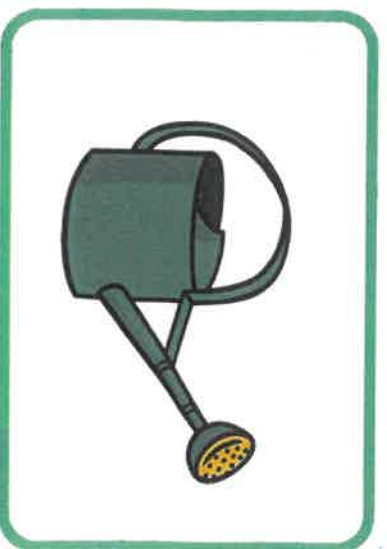

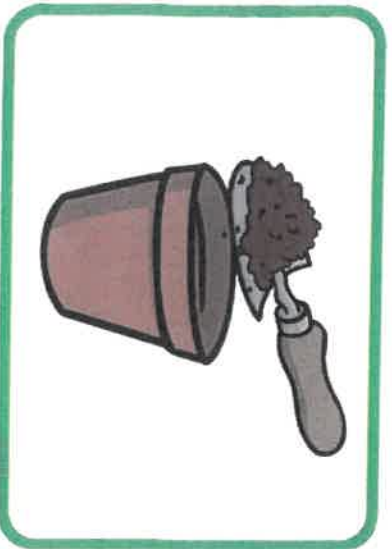

The seeds begin to sprout and grow.

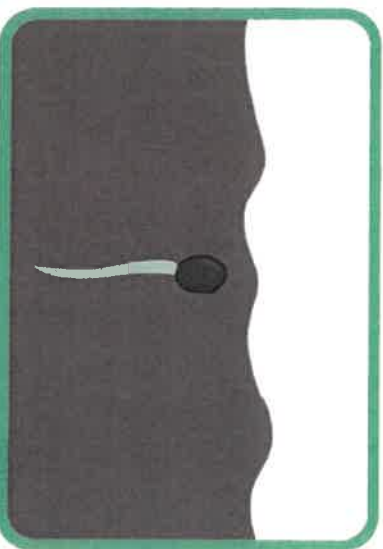

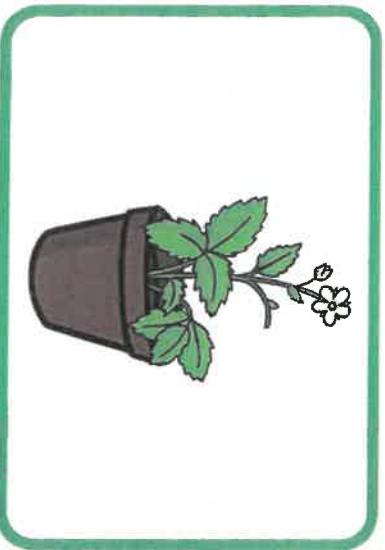

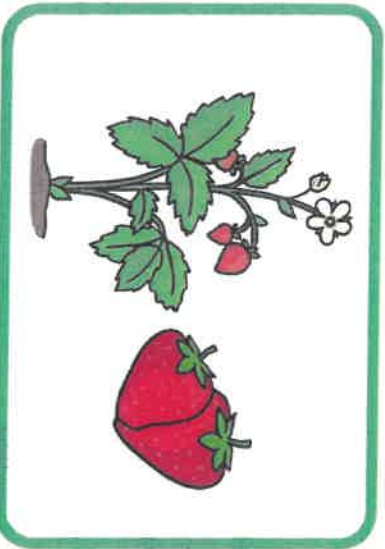

Fruit Plant Growth Sequencing

Diagrams

The diagram consists of a 2x3 grid of empty rounded rectangular boxes, each outlined in green. The boxes are arranged in two rows and three columns. In the top row, an arrow points from the rightmost box to the middle box, and another arrow points from the middle box to the leftmost box. In the bottom row, an arrow points from the rightmost box to the middle box, and another arrow points from the middle box to the leftmost box. This layout is designed for students to draw and sequence the stages of fruit plant growth.

Parares

Fill the plant pot with soil.

Plant the seeds into the soil.

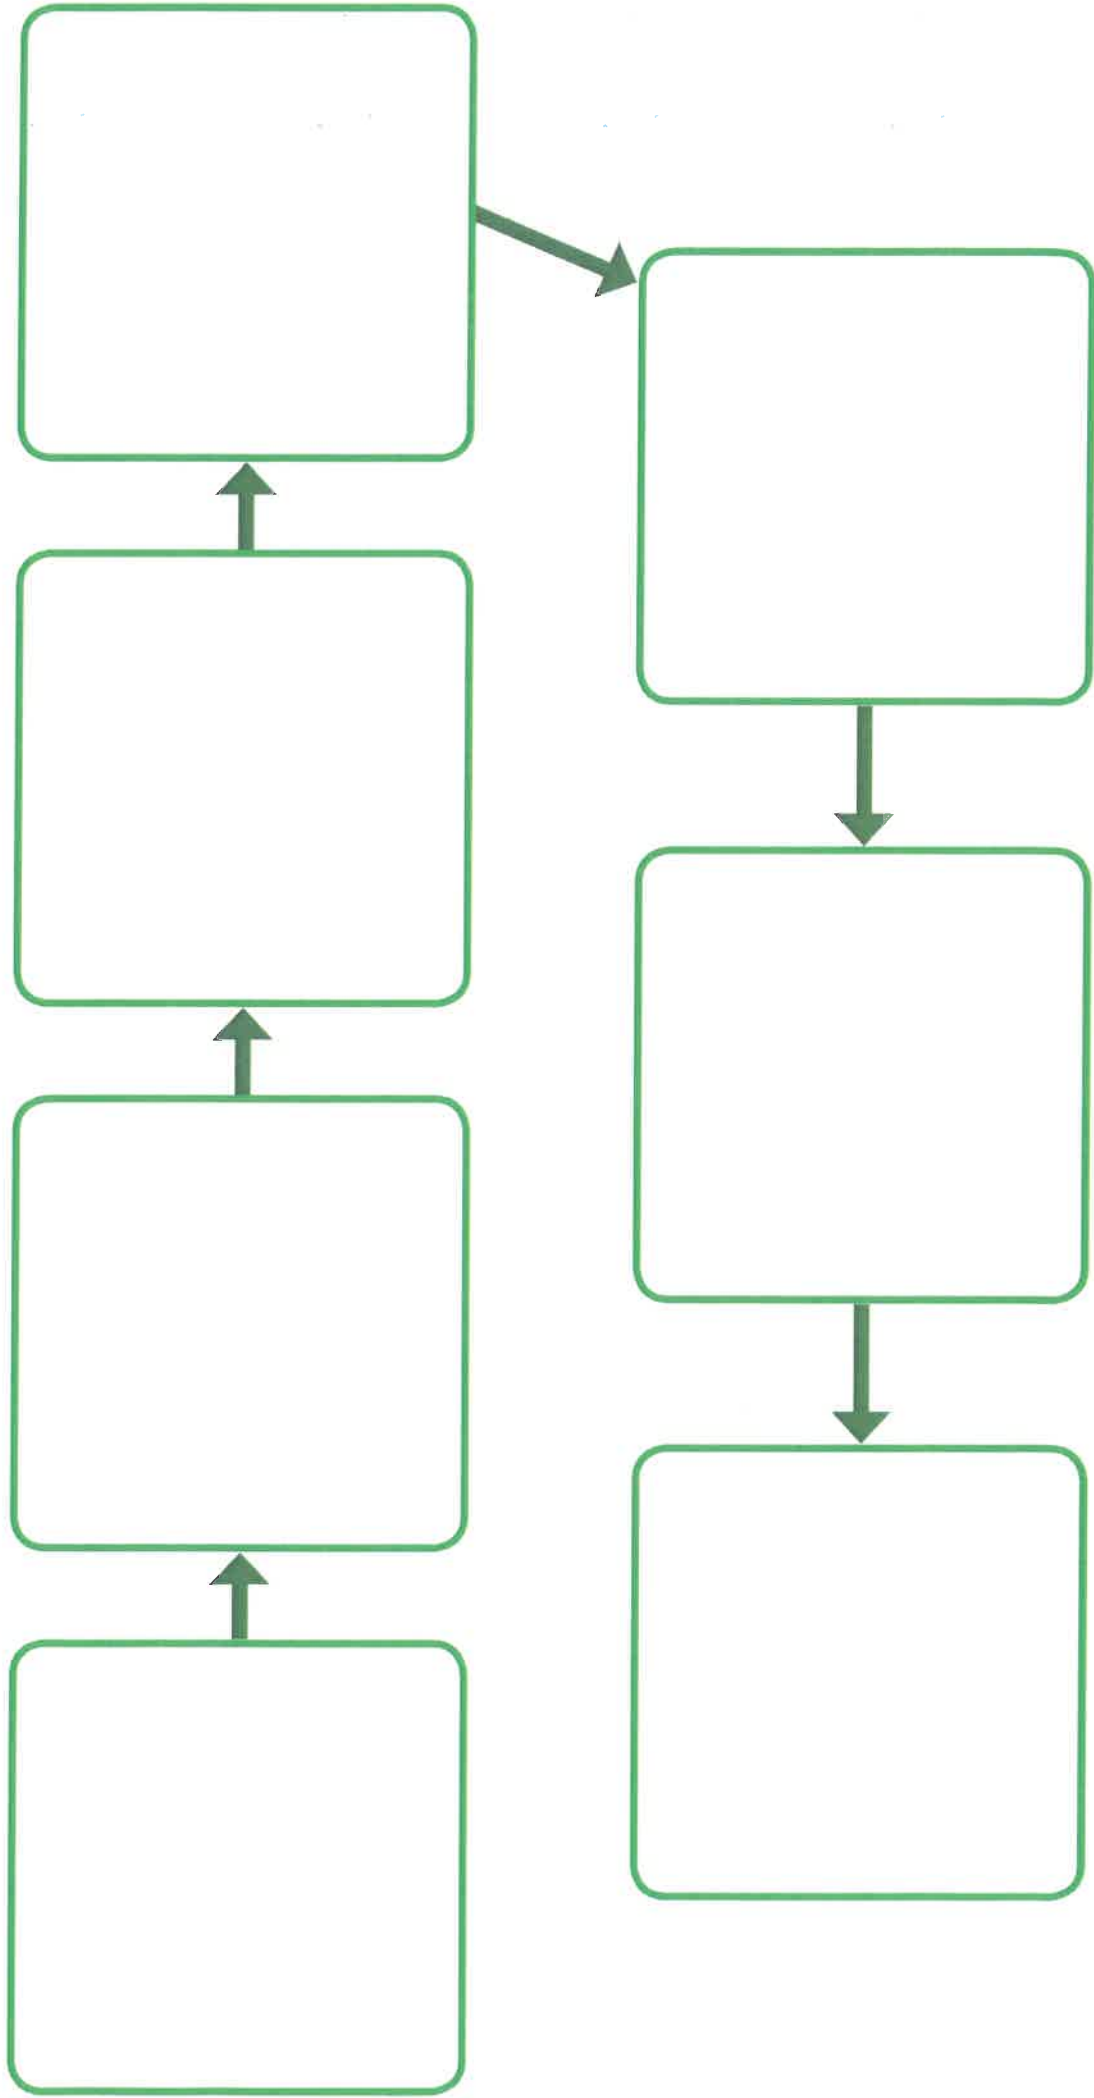

Using a watering can, water the seeds.

Fruit then grows on the plant.

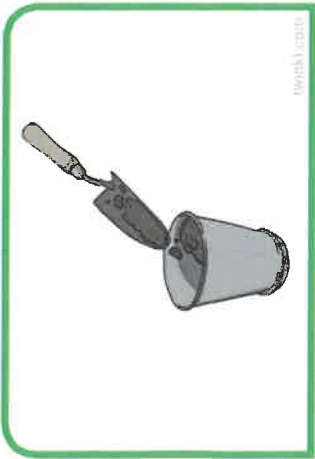

The plant grows and begins to flower.

The seeds begin to sprout and grow.
