

Red Robins

22.9.25

This week's homework is science and we have been loving and living and non-living things. Can you have a go at colouring all of the living things on the picture. If you don't have these colours, don't worry, you can use any colours.

- Colour the living things green.
- Colour the non-living things red.

Magenta Monkeys

22.9.25

This week's homework is science and we have been looking at living things. Can you have a go at sorting the words below into living and non-living.

Living	Non-living

Bee 	Elephant 	Pencil 
Dog 	Plant 	Table 

Blue Birds

22.9.25

This week's homework is science and we have been looking at living things. Can you have a go at sorting the words below into living and non-living.

Living	Non-living

Human	Elephant	Pen
Dog	Plant	Table

Turquoise Turtles

22.9.25

This week's homework is science and we have been looking at living things. Can you have a go at sorting the words below into living and non-living and then think of something that is living and something that is not and add it to your list?

Living	Non-living

Human	Elephant	Pencil
Dog	Plant	Table

Purple penguins.

22.9.25

This week's homework is science and we have been looking at living things. Can you have a go at writing a list of things that are living and non-living, in the correct section of the table. You might want to have a look for things in your house or garden to help you.
