

Climate Friendly Action Plan

for

Nettlesworth Primary School

Our school is concerned about climate change and wishes to be part of the climate solution. We realize that we need to constantly look for new ways of improving our climate performance, in order to minimise the amount of greenhouse gasses that our school releases into the atmosphere. To help us to take positive climate action we have created the following Climate Friendly Action Plan.

Climate Friendly Action Plan

for

Nettlesworth Primary School

Together, at Nettlesworth Primary School, we agree that we will achieve the following Action Points:

Action 1	Description	Who	Associated Costs	When	Evidence / Results
Reduce Energy Use	• Encourage all classes to switch off lights, computers and interactive whiteboards when not in use. • Introduce classroom energy monitors to help reduce wasted electricity. • Aim to reduce the school's energy consumption by 10% over the academic year.	All staff	£0	All year	Reduced energy bill
